

KRUSHNAKANT RUTELE

FULL STACK DEVELOPER (MERN)

+91-8530604630 | krushnanakrutele1979@gmail.com | [linkedin.com/in/krushnakant-rutele](https://www.linkedin.com/in/krushnakant-rutele)

SUMMARY

Results-driven BCA graduate (2025) and Full Stack Developer specializing in the MERN stack (MongoDB, Express.js, React.js, Node.js). Proven ability to design and implement RESTful API architecture, JWT-based authentication, and scalable database-driven systems, backed by three deployed full-stack projects covering CRUD operations, JSON-based API communication, and responsive UI design. Strong problem-solving skills with a track record of writing clean, maintainable code. Currently expanding expertise in TypeScript, Docker, and cloud deployment (AWS/Render/Vercel) to deliver production-ready applications. Seeking to leverage full-stack development skills and a fast learning ability to contribute immediately to a growing engineering team as a Full Stack / MERN Developer.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Responsive Web Design

Backend: Node.js, Express.js, RESTful API Design & Development, JWT Authentication, JSON

Database: MongoDB, CRUD Operations, Data Modeling, Query Optimization

Tools & Platforms: Git, GitHub, Postman, VS Code, npm

Core Competencies: API Integration, Authentication & Authorization, Database Management, Debugging & Problem Solving, Agile Fundamentals

Currently Expanding: TypeScript, Docker, Jest & React Testing Library, Cloud Deployment (AWS/Render/Vercel), Data Structures & Algorithms

PROJECTS

E-Commerce Website

Technologies: React.js, Node.js, Express.js, MongoDB, JWT, REST API

- Architected and deployed a full-stack e-commerce platform spanning 4+ pages (Home, Product Listing, Cart, Checkout), delivering dynamic search and category-based filtering across a 50+ product catalog.
- Designed and built 10+ RESTful API endpoints for product, cart, and user management, standardizing JSON-based request/response handling to ensure reliable client-server communication.
- Implemented JWT-based authentication and authorization to secure user accounts, login sessions, and order data, reducing unauthorized access risk.
- Engineered MongoDB schemas and queries for efficient data storage and retrieval, enabling real-time product inventory tracking and order updates.

Student Management System

Technologies: React.js, Node.js, Express.js, MongoDB, REST API

- Built a full-stack CRUD application to manage 100+ student records, delivering complete Create, Read, Update, and Delete functionality with a streamlined admin workflow.
- Designed and implemented 8+ RESTful API endpoints for student management, incorporating backend validation to ensure data accuracy and consistency.
- Integrated MongoDB for scalable data storage, improving record retrieval speed and reliability compared to manual record-keeping processes.
- Developed a responsive, mobile-friendly UI using modern frontend technologies, ensuring consistent usability across desktop and mobile devices.

EDUCATION

Bachelor of Computer Applications (BCA)

Shankarlal Khandelwal Arts, Science and Commerce College, Akola | SGBAU 2022 - 2025

Certification: MERN Stack Development with GenAI

GeeksforGeeks July 2025 - January 2026
